New York, NY 10278

RE: WATER MAIN EXTENSIONS
NOVA UKRAINE AREA

Dear Mr. Haklar:

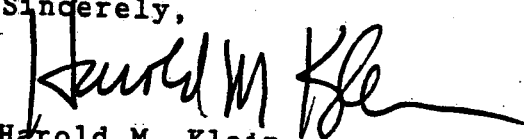

This is to acknowledge your letter dated October 31st requesting certain information about the water main extension project in the Nova Ukraine area,

Enclosed is a map of the project area as well as a list of seven residents who, according to our information, have not signed agreements with Elizabethtown Water Company to tie into the public water system. As of today, the water mains have been installed and by November 9th the extensions to all homeowners who have requested a tie-in will be completed. The homeowners will have to make arrangements with a plumber to bring the water into their homes.

With respect to your question about the construction of the residential wells in this area, I have spoken to our construction Code Official and the Health Department. They are unable to give me any information about this subject since the wells were probably constructed more than 25 years ago.

If you have any questions or comments, please call me.

Sincerely,

Harold M. Klein
Business Administrator
